

Art Supplies 14.4.21

Today we will think of and talk about ideas for our Digital Day Service logo.

I will show you some logos that you already know and we will talk about what makes them stand out.

We will think about what the Digital Day Service means to us and what images, symbols and colors could be used to show that?

We can then draw our ideas on paper and/or find some images and lettering we like in magazines and make them into a logo.

You can work more on your logo after the class and send us in a photo when you are finished.

Good luck everyone!

You will need:

Paper

Pencils

Markers, colouring pencils or paints

Magazines

Pritt stick glue

Scissors.
