

***A Sensory Attachment Approach
To Working with
Adolescents and Adults***

*Course Author
Éadaoin Bhreathnach. M.Sc. MRCOT*

Course Application Form

This six-day course is aimed at therapists working in the field of Intellectual Disability (adolescents and adults), Mental Health (Adult Mental Health, Forensic Mental Health and Child and Adolescent Mental Health Services) and Child Protection services. The course looks at self-regulation and co-regulation from sensory processing and attachment perspectives. It includes training in administration of the Just Right State Programme for Adults and Adolescents which is also used to support Key Workers'/Carers' regulation needs.
